

FOREIGN TROOPS IN KINGDOM

Made Demonstration by Parading the Streets of Tien Tsin

LOOTING BY ROBBERS

And Appeal Is Sent Chinese Rebels for Aid—Forming of the New Cabinet.

London, Nov. 17.—Dispatches from Tien Tsin state that Russian, British and French troops made demonstrations today by parading in the streets.

Amoy, Nov. 17.—Interior towns in this province having been abandoned by the imperial officials are appealing to the rebels to send magistrates to preserve order and protect inhabitants from the looting of robber bands. From Chang Chow word comes that the anti-foreigners are becoming active. More than 1,000 casualties have occurred.

Peking, China, Nov. 17.—Premier Yuan Shi Kai has announced his cabinet. The cabinet, in addition to the ministry, consists of 10 "boards" with two members each, bearing the title of president and vice president. A few Manchus are given portfolios, but there are no nobles.

It is questionable whether the new cabinet will stand. One of the members expressed amazement at his appointment. It is believed that few of the new ministers have been consulted and it is expected that several will decline to serve.

The cabinet comprises curious appointments. Liang Chi-Chiao, appointed vice president of the board of justice, is the "great Chinese reformer" who was exiled by the late Empress Dowager at Yuan Shi Kai's suggestion.

Chang Chien, appointed president of the board of agriculture and commerce, is a member of the new government at Kiang-Su. He signed, with Yuan Shi Kai, the demand for the throne's abdication, which the reformers sought to have delivered to the Prince Regent through the American legation.

Several other members of the new cabinet are known to be strong sympathizers with the revolutionary movement.

The organization of the cabinet was evidently an attempt to include in its personnel representatives of all parties. The question arises whether Yuan Shi Kai was unable to foresee his inability to organize such a cabinet if it could be actually formed.

Opinion is divided with regard to the object Yuan Shi Kai has in view. Some think he has lost his astuteness and intuition, while others hold that he is playing a deep game.

His real object may be to convince the throne that a capable cabinet cannot be formed, but he gives the impression to visitors, both Chinese and foreigners, that he is determined to defeat the rebels.

Foreign diplomatic representatives have under discussion the appointment of a committee to disburse the maritime customs which are being reserved by the Inspector General Francis Arthur Aglen, for payment of loans and indemnities. This seems to be the beginning of foreign interference in the financial affairs of China.

Certain members of the National Assembly are advocating the discontinuance of that body, because a large majority of the elected members have left the capital. Those who remain are chiefly the throne's appointees and the assembly is without a quorum.

Thirty thousand imperial troops, stationed at Hangchow, capital of Che Kiang province, have joined the rebels and defeated the loyal troops near Ching Kiang, about 40 miles from Nanking. The combined forces, the Consul here are advised, are now marching on Nanking, where a battle is expected.

WILL CONTEST THE ELECTION

Baltimore, Md., Nov. 17.—Friends of Arthur C. Gorman, including prominent Democratic leaders of the state are preparing to contest the election of Philip Lee Goldsborough, Republican, for Governor. Within a few days court proceedings to permit of the opening of the ballot boxes will be instituted. The Democrats claim that election supervisors illegally put the name of William Brune on the ballot as "progressive Democratic" candidate for judge. If the ballots are recounted and it is found enough tickets were marked for Gorman to elect him the information will be furnished the court.

600 ELECTRIC LAMPS LIGHT COURT HOUSE DOME BEGINNING TOMORROW NIGHT

First Step of Board of Trade in Court House Park Improvement—Business Men Provide Funds for the Work at Hand.

The court house lights will start on their year's run tomorrow evening.

In this connection the following communication from Mr. Sprague will be read with interest:

Beginning Saturday evening, the court house tower and steeple will be illuminated every night from dusk to midnight for a period of one year, funds for the maintenance of the lights and for their installation having been generously subscribed by our citizens. Six hundred incandescent lights will be employed and will burn rain or shine on the schedule mentioned.

The lights are set eighteen inches apart, reaching to a point one hundred and sixty-two feet from the ground and their full effect should be easily seen for several miles.

To the committee appointed by C. H. Spencer, president of the Board of Trade, the subscriptions necessary to finance the undertaking were made with surprising willingness and appreciation, so much so as to suggest that anything for the common good of the people that is cheering and uplifting, is a timely need, or as one subscriber put it "I am for anything that will brighten up the town and radiate a little light."

Another said: "It's just the thing; illumination is a gloom killer" and on that court house is certainly the place to nail it." Another ardent subscriber prefaced his subscription with this view of things "Gentlemen, I am a farmer. I moved into town five years ago and don't regret it. The town suits me; it's all right, but I somehow think the people here make too much fuss for what they accomplish. I think the trouble is, you rotate your laws a trifle too much, but these lights feel good to me, yes, they do. I am for anything that brings us together and that will go along with out any fuss." A subscriber from the Fourth Ward, Precinct A, had this to say: "Yes, always something. I am certainly not afraid of dying rich. If it isn't one thing, it is another, and the way they hop on me for funds at home these days is a killer. All my six children are grown up now and everyone of the bunch belongs to a different club and two of them show signs of straying away to a different church. This all takes cash. I fail to see how it benefits them, but we certainly do get the news. I am in on this illumination just to try it on the family. They certainly can't scatter on this proposition."

A citizen of Newark, now traveling in Europe, wrote as follows: "I am glad to hear that the Board of Trade has taken up the matter of illumination. You may add my name to the subscribers to your new firmament. Over here everything tends for civic patriotism. It is the European spirit and every city and town has its board for local improvements. In Germany especially, I hear something new every day, showing the restraints put upon the individual in the cause of civic pride. I am glad to hear that there is a spirit at work in Newark to soften its asperities and make it a place to which even the heart of a stranger warms."

Still another subscriber had this to say: "I am for civic improvement always. I believe for a town to thrive, it should have public spirit and plenty of it. What ails Newark is this, it is too honey-combed with cliques."

The Board of Trade has planned the Court House park improvement to include "bubble" fountains, better lighting, better walks, tree preservation and shrubbery planting. Two of the sanitary fountains like the illustration have been placed on the west side of the public square.

and clubs and organizations of all kinds. There are so many of these combinations and contending factions that they hinder their own cause, eat up the people's money and in their individual feebleness check progress and deaden public spirit. It is this straying away from the common fold that creates a lifeless and indifferent citizenship against which every public evil should be righteously charged. But, changing the subject, light is always welcome. The word itself is an enchanting one and has a saintly meaning. It surely is a pleasure to subscribe to such a cause."

From these comments and many others in the same vein, this illumination, it seems, has met a warm welcome reflecting to a degree that what the community needs is something, not alone to divert the mind from common ills, but that will prompt, if possible, a spirit of fraternal citizenship.

EARTHQUAKE SHOCK IN SWITZERLAND

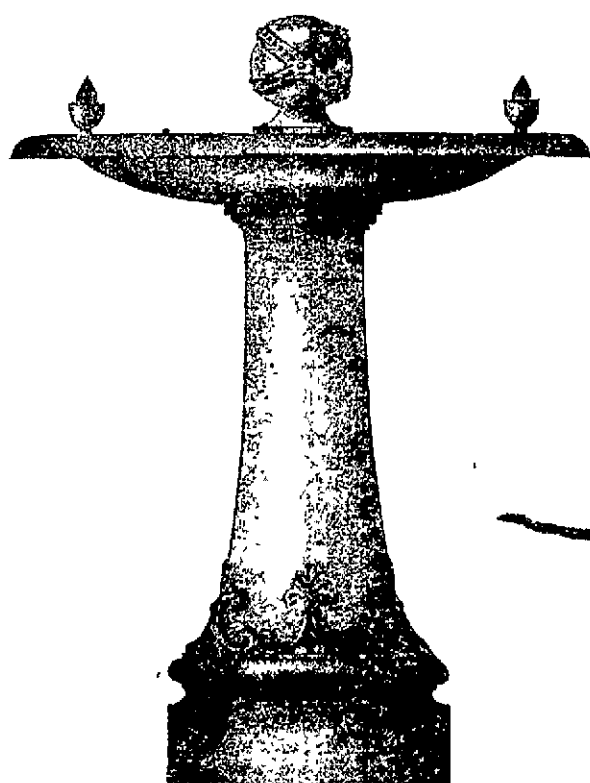

Berne, Switzerland, Nov. 17.—A violent earthquake shock was felt through Switzerland at 10:27 last night. This was followed by lesser earthquakes and at Shamox enormous avalanches rushed down the side of Mt. Blanc.

The kingdom of Wurtemberg was badly shaken. In Evengton 600 panic stricken persons spent the night grouped about a fire built in an open field. Railroad communication to the place is interrupted. Similar reports have been received from surrounding territory. At Heidelberg a panic ensued in a theatre following the first shock. Several buildings including the St. Stephan's church were demolished. Large stones were shaken from the steeple.

SOCIETY WOMEN OF CHICAGO

Have Fleeced the Unwary Out of Hundreds of Thousands of Dollars

MANIPULATED THE CARDS

And Were Always on the Lookout for "Live" Ones With the Big Bank Rolls.

Chicago, Ill., Nov. 17.—Sensational disclosures, showing the city-wide ramifications of Sheridan Road's society gambling and laying bare the methods by which certain women reached down-town, and even into the South-side "red light" district for their victims, has become known to the public as an aftermath to the order of Chief of Police McWenney 10 days ago that gaming in women's residences on the North Side be stopped.

The story, which is offered as proof that the social gambling was far from the innocent little game that the women attempted to defend and that within the last two years it yielded for its various feminine promoters more than half a million dollars, much of which was obtained from men lured to their homes, came from a prominent Chicago criminal lawyer, who learned of the scheme from a client who fell victim to the extent of \$7,000 and a collection of diamonds in one evening.

Requesting that the name of his client be withheld, the lawyer consented to relate the method the women gamblers and pointed out how its whole working was as precise in every detail as the "capper" and "bring-in" systems of the best professional gamblers the city has ever known.

The story of his client's experience, he declared, indicates that unfair methods in manipulating the cards and the dice at some North Side homes were not uncommon. So cleverly was the "juggling" of the pastebored accomplished, he insists, that one of the men, a steady loser, and a professional gambler himself, was not able to "beat the game." To escape the humiliation which publicity would give as to the way he was beaten at his own game by a company of women, the victim refused to take legal action against them to recover some of the money he lost. Instead he went into bankruptcy.

Exposure of the gambling in women's homes at the time the police ordered it stopped recently was only a drop in the bucket compared with what might be said of it if every-thing were told," said the lawyer. "Half a million dollars would not begin to pay back to the victims what has been lost in half a dozen residences during the last few years. The system worked as near perfect as it could have been. The women went only for 'live' ones and played the game carefully, so as to make it sure and impossible of betrayal. The man who told me of how he was duped knows all about professional gamblers and their methods, and even he did not find out what he was up against until he had lost nearly \$10,000 in a week."

Most profitable to the women who promoted the scheme, according to the informant was a man "capper," whose name is well known in the list of the city's professional gamblers. He holds forth in the South Side "red light" district, where he is the proprietor of an all-night restaurant. Through his aid the women were thrown into touch with the \$7,000 "live one."

Meantime other victims were brought in through the agency of other women "cappers" who operated at down town hotels, and, aided by smiles, perfume, fashionable gowns and fascinating manners, effected a disguise as to their real purpose.

"In addition to the card 'juggling' accomplishment of the women and a few men whose professional services they frequently found it to their interest to enlist when a particularly wary victim was being handled, they had provided themselves with electrically controlled dice tables," said the lawyer. "With electrical batteries and loaded dice it was possible to play the game in an absolute 'sure thing' manner."

A SOUND BANKING SYSTEM

One of the Imperative Needs of the Country, Says Carnegie

URGES PANIC INSURANCE

Pleads for Central Reserve That Will Support Banks in Time of Distress.

New York, Nov. 17.—"Money panics don't hurt the rich," said Andrew Carnegie today, when asked why he thought the United States had "the worst banking system in the world." "Panics hurt the working man. The rich can manage to get through a panic like that of 1907 without suffering; it is the people who depend upon daily earnings for their daily bread who feel the cruel burdens of panics. The rich do not suffer for lack of food, or clothing, or shelter, because hundreds of thousands of American workers are thrown out of employment, as they were in 1907, and as they were in the 90's and in the 70's."

Mr. Carnegie said that while no great industrial country could insure itself against occasional periods of business depression following over-expansion and over-speculation, the experience of Europe showed conclusively that money panics could be prevented even in a time of war.

"Isn't a humiliating thing," said he, "that this great rich country of ours is the only civilized country in which money panics occur? We don't need to have panics any more than we need to have the plague. We suffer from them because we have a banking and currency system that breeds panics."

"Before I came home from abroad this fall, Germany was just giving an illuminating lesson of how a sound banking system prevents panics. The same conditions in New York that existed in Berlin a few weeks ago would have precipitated a panic like that of 1907."

"England, France and Germany are safely secured against panics. When a crisis comes, it is promptly controlled and made comparatively harmless. How? By using the reserve banking power. Central banking institutions always stand ready to re-discount good business paper, and give legal tender notes in exchange, thus enabling the banks to loan the business community all the funds it needs."

In one week in September the Reichsbank stopped the impending Berlin war panic by increasing its loans \$145,000,000, and increasing its bank note issue by \$154,000,000.

"In this country, in such a crisis, the whole machinery of credit stops, and ruin runs riot throughout the business world."

"I am impatient at the folly, yes, the crime, of allowing our whole credit structure to be exposed to disaster, as it now is, simply because we have neglected to follow the example of other nations, by adding to our banking system what other civilized nations have; viz., a means of calling upon the reserves of banks by allowing a co-operative association of the banks to issue legal tender currency in times of stress. I believe there is not another duty so imperatively demanded as the prompt creation of this reserve power. It can only be done by the demand of the people expressed through legislation in Congress."

"We spend our time discussing trifling political issues, leaving the entire structure of credit open to disastrous panic, which could easily be obviated were our banking system provided with reserve power always ready for action."

"We sacrificed sound banking in the Civil War to sustain the public credit, when we began issuing currency based on Government bonds. But today our public credit certainly needs no such support. It is time we corrected the evil of half a century ago. Other countries have an enormous advantage over us, because their bank currency is based on commercial paper arising out of day-to-day business transactions. When business expands, there is more commercial paper created, and the currency automatically expands; when business contracts, commercial paper is retired, and the currency contracts. The business community always has the currency it needs and no more."

"Every working man and woman in America should have the equivalent of an insurance policy against dire disaster from financial panics. A co-operative banking reserve will give this insurance."

The Great Kidney Remedy Convinces the Most Skeptical.

I want to tell you what Dr. Kilmer's Swamp-Root did for me. I was completely broken down. My kidneys hurt me so that when I was down, I could not get up unless I took hold of something to pull myself up with.

I tried different kinds of kidney pills, but they did me no good. Someone told me to try Swamp-Root. I had no faith in it. I saw it was beginning to help me and kept on taking it until I had taken six bottles and it straightened me out all right.

Swamp-Root is the only medicine that did me any good. I thought I would write this letter and tell everyone that is afflicted as I was, to take Dr. Kilmer's Swamp-Root. The six bottles I took cost me five dollars, and did me five hundred dollars worth of good. Yours very truly,

Admiral Phelps, Named in Divorce Suit, Denies Charge

REAR ADMIRAL

Moore, who is a wealthy ranchman, says that his wife confessed to him that she had known Phelps intimate before her marriage and that he was the father of two of her children. The divorce suit is on trial at Redlands. Mrs. Moore accuses her husband of breaking his marriage vows, of drunkenness and cruelty. She asks for a division of his property, which she says is worth \$500,000.

Human Sacrifices Still.

In some parts of Syria the peasants believe that doctors and druggists have a right to kill one man and one woman every year to make medicines out of their bodies. A druggist whose establishment was boycotted because he was thought to have tried to murder a boy, brought suit against the boy's parents for their interference with his trade, but he received no damages, as it was recognized that the adults were believers in the old superstition.

Climate Failed— Medicine Cured

It has been absolutely shown that rest, fresh air, and good food do help many persons suffering from Tuberculosis. But, to be really honest, it must be admitted that the seldom cure of this disease is "arrested." Something more is needed. Bekman's Alternative is a medicine made for the cure of Tuberculosis. It has cured this disease again and again. Often these cures have been effected where the surroundings were not ideal, where no intelligent cure was taken of the patient, where money was scarce; good food and good cooking and rest were essential. Now we argue and urge that Bekman's Alternative should be used in every case of Tuberculosis in addition to good, nourishing food and fresh air, which we all need.

The facts—the evidence of cures that have been made—are interesting reading. A remarkable cure follows—Wilson, Ill. "Gentlemen, through Bekman's Alternative I have been saved from a premature grave, and feeling that I could benefit suffering humanity, I take pleasure in writing you a brief history of my sickness, which you are at liberty to use."

"On December 11, 1904, I was taken with Typhoid fever. My lungs became very much affected. My condition was examined and Tuberculosis Bacilli were found. On February 21st, 1905, was advised to go to Fort Worth, Texas. While there an abscess in my right lung broke and discharged. I grew worse, and became very much emaciated. My physician informed me that I must go to Colorado as quickly as possible. I left Texas June 1st, 1905, and arrived in Canon City June 30th, very feeble. After being there two weeks, my physician informed me that nothing could be done, as my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of reaching there alive."

"On July 11, 1905, I began taking Bekman's Alternative remedy for Consumption. It having been highly recommended, today I weigh 155 pounds. I am stout and well, and can do any kind of work about my grain elevator. I have not an ache or pain in my lungs, eat well, sleep well, and never feel better. I would be glad if every person afflicted with Tuberculosis took Bekman's Alternative. Bekman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Measles and La Grippe, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for Bekman's Alternative, Philadelphia, Pa., for more evidence. For sale by all leading druggists."

THE KITCHEN CABINET

Let onion atoms lurk within the bowl. And half suspected animate the whole. —Sidney Smith

No near I shall be that your best friend shall wish I had been further.

VALUE OF THE ONION.

The onion has wonderful properties and is both a food and a medicine. For colds and coughs it is a remedy popular through many generations.

A few onions sliced and sprinkled generously with sugar, put into the oven and baked until the onion and sirup is brown is a cough medicine hard to equal.

Raw onions are said to cure bronchitis and throat affections.

The only drawback to the full enjoyment of this homely vegetable is the odor which it leaves on the breath. Fresh parsley eaten after eating onions is the best remedy to counteract the onion odor.

Raw onion is more stimulating than cooked ones and they are said to have a beneficial effect on the complexion, so the onion eaters have some compensation.

Creamed Onions on Toast—Peel onions all of one size and put to cook in a little stock with a blade of mace and cook gently until tender. Drain and keep the onions hot, then add a half cup of milk to the onion liquid. Add a little flour and butter cooked together. Boil and season. Prepare a piece of toast for each onion. Add a yolk of egg to the sauce, lay an onion on each piece of toast, pour over some of the sauce, sprinkle with chopped parsley and serve hot.

Chopped onion seasoned with a bit of mustard, salt and olive oil and vinegar makes a very appetizing filling for sandwiches. Serve them for Sunday night lunch—after church.

The delicious flavor of the onion is used in countless dishes and eaten with relish by many who profess to dislike the flavor.

Stuffed Onions—Parboil large-sized onions and remove the centers. Fill with seasoned sausage or a filling of nuts and crumbs. Bake and baste with soup stock or butter and water. Serve as a garnish for pork roast, chops or steak.

Huge Ropes of Human Hair.

In north Japan is an enormous temple, the timbers of which were hauled from the mountains and put in place with ropes made from the hair of the women of the province. From these tresses, which were brought forth by an edict, two ropes were made—one 17 inches in circumference and 1,400 feet in length, while the other was 11 inches in circumference and 2,600 feet long.

A "Smooth-Faced Man."

Today the expression "a smooth-faced man" means, of course, in common parlance, one who shaves and does not wear a beard. But a hundred years ago it was used to describe one who had not been pitted with smallpox. Thus does the changed use and meaning of a common expression indicate the days when smallpox was a common scourge.

Substitute for Rubber.

One of the many proposed substitutes for rubber is obtained from the soy or Manchurian bean, which resembles the kidney bean, and has been introduced from Japan and the east Indies into the southern United States. A rubber-like product that can be vulcanized is obtained by treating the bean with nitric acid, alkalis and great heat.

Like Homicidal Mania.

"A man who has once murdered the queen's English always feels as if he'd got the body under the sofa. It's like homicidal mania; the poor wretch may be cured, but he lives in terror of an attack returning. He knows it doesn't matter what he is or what he does; he may live like a saint or write like an archangel; but one attack omitted from his conversation will wreck him at the last."—May Sinclair.

HOW TO CURE BLOOD POISON

Contagious Blood Poison is a virulent germ, and like most other bacterial organisms is very difficult to kill or destroy within the system. It would therefore be useless to endeavor to cure the disease with some strong medicine intended to destroy the diseased blood cells and virus. The proper way—the only way—is to REMOVE the germs and poisons from the blood by purifying the circulation. Thousands have cured themselves of this powerful disease by the use of S. S. S., the greatest of all vegetable blood purifiers. This is a medicine of unquestioned ability in the treatment of Contagious Blood Poison. For more than forty years it has been prepared and sold as a cure for this trouble, and not only its efficacy, but the fact that it does not contain a particle of mineral, or other harmful drug, should be an inducement to any Contagious Blood Poison sufferer to begin its use. S. S. S. goes right down into the circulation, and removes every trace of the destructive virus. It heals all sores, stops falling hair, and by cleansing and enriching the blood, soon clears the body of every symptom. S. S. S. cures to every cure; there is no future breaking out of the disease. Home Treatment book and any medical advice free. S. S. S. is sold at drug stores.

NEURASTHENIA

Another Name for Nervous Exhaustion.

How It Is Caused and How It Can Be Cured Without Leaving Your Home.

Neurasthenia is the physician's name for a condition of weakness or exhaustion of the nervous system. The patient finds difficulty in keeping his mind on his work, is inclined to worry over trifles, is often depressed and irritable, is subject to headaches or a feeling of pressure on the head, is sleepless and some times the digestion is disturbed. Overwork or worry is often the cause. The treatment consists largely in rest, recreation and the use of a tonic, the discontinuance of any practice that may have caused the trouble and abstinence from tea, coffee and stimulants. As the nerves recover their normal strength through the blood the latter must be built up and made rich and pure. Especially if there is loss of weight and a pallor indicating a weakness of the blood, Dr. Williams' Pink Pills for Pale People are the tonic best adapted to effect a cure.

Mrs. James H. Dyer, of No. 818 Princeton street, Lowell, Mass., says: "I was a sufferer from nervous debility for years. I felt weak all of the time and could not stand any physical strain. I had frequent sick headaches and often fainted away. I was worried all of the time and was very much discouraged. The doctors said I had neurasthenia, or nervous debility, and advised a complete rest and change but I was unable to take them because of my children. For years I was under treatment and had given up hope of a cure. A friend who had been cured by Dr. Williams' Pink Pills for Pale People urged me to try them. I was much stronger after a short trial of the pills and resolved to keep on with them. My health is now much better than it has been in years and I recommend the pills very highly."

Every person who is interested in the home treatment of nervous disorders should send for the new edition of our booklet entitled "Diagnosis of the Nervous System, Their Nature, Symptoms and Treatment." Address the Dr. Williams Medicine Co., Schenectady, N. Y.

Dr. Williams' Pink Pills contain no harmful or habit-forming drugs, and the sufferer who gives them a trial will avoid the danger so common in taking drugs which only deaden pain.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

MINORITY VOTE
ON REFERENDUM
PROPOSITION

The experience of every state in the Union where the referendum is in force, even as to constitutional amendments, is that notwithstanding the comparative simplicity of the questions submitted, only about one-half or two-thirds of the people voting for candidates cast their votes for or against the proposed amendments. The remainder from ignorance or indifference, do not attempt to pass upon the questions at all, and even of those voting it is safe to assume that no very large proportion have really taken the time to study and understand the question submitted. I know from my own observation that of the persons who vote one way or the other many vote against proposed constitutional amendments because they have not taken the trouble to inform themselves as to the merits, and, on the other hand, many others vote for the amendments without understanding them and wholly on the strength of somebody's statement that they are all right. In a recent election held in South Dakota, 13 proposed laws were submitted to the people under the referendum and every one of them were rejected at the polls, not because they were all bad, but because, as I am informed upon high authority, the mass of the people would not take the trouble to distinguish between the good and the bad, but vote against them all in utter disgust at the unbecoming task which they had been called upon to perform.

All the objections which apply to the modern referendum apply with increased force to the initiative; and, in addition, there is the further objection that the proposed law is not even framed by any deliberate or responsible body—United States Senator Sutherland.

CATARRH OF
THE STOMACH

A Pleasant Simple, Safe and Effective Cure For It.

COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour, watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a shiny, inflamed condition.

The cure of this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston, the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

The plan of dieting is simply another name for starvation, and the use of prepared foods and new fangled breakfast foods simply makes matters worse as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is troubled in any way with poor digestion, is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trademark it must be a humbug, whereas, as a matter of truth, any druggist who is observant knows that Stuart's Dyspepsia Tablets have cured more people of catarrh of the stomach, indigestion, heartburn, heart trouble, nervous prostration and run-down condition generally, than all the patent medicines and doctor's prescriptions for stomach trouble combined.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of the stomach, biliousness, sour stomach, heartburn and bloating after meals.

For sale by all druggists at 50c a box.

Send your name and address today for a free trial package and see for yourself. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Cranberries For Erysipelas.
A trained nurse tells of an old
home remedy for erysipelas.
Ripe cranberries were pounded
to a paste and applied over the
afflicted parts. They were
bound with thin muslin and
kept on until they dried, when
a new portion was applied un-
til the inflammation was drawn
out. Cranberries reduce inflam-
mation. They are almost as if
cooked from the absorbed heat,
but they do not act as would a
poultice.

Unclaimed Express Sale.
A large amount of unclaimed ex-
press that had been accumulating for
a long time was sold Friday at pub-
lic auction by the United States Ex-
press Company. There were nume-
rous bidders, and nearly every pack-
age was sold. Some of the packages
contained valuables while others con-
tained circulars, and articles of small
value to anyone. These sales always
draw large crowds, and sometimes a
buyer bids in a package the contents
of which are very valuable.

INDUSTRIAL
REVIVAL IS
BEING FELT

Population of City is Increasing.
Many Factories Rushed With
Work and Big Demand
For Homes.

The indications all point to the fact
that Newark is on the eve of a great
industrial revival in all branches of
business. This is demonstrated by
the fact that numerous inquiries are
being made by parties living else-
where regarding the existing condi-
tions and the prospects for the fu-
ture, with a view of locating here.
During the past several months quite
a number of strangers have moved to
Newark with a view of making this
place their future homes. Many of
them are buying properties.

An Advocate reporter in conversa-
tion with Mr. I. M. Phillips, one of
Newark's most prominent real estate
agents, was told that the prospects for
a greater business revival never
looked brighter; that during the past
month there has been a strong in-
quiry for medium priced dwelling
houses and an unusual demand for
houses to rent. This all goes to show
that the population of the city is in-
creasing and that houses to rent are
hard to get.

Many of the big factories of the city
are being rushed with work at the
present time, and orders are flowing
in which insure the running of the

THE BAD COLD SEASON.

I am coughing, mother, coughing, till my neck is out of joint,
and I wish you'd bring the goosegrease, my worn bosom to anoint.
I have coughed in ancient lingos, I have coughed in modern tongue,
till my India rubber larynx seems to telescope my lungs. I've done
ground and lofty coughing, all the plain and fancy kinds, till my
coughing jarred the plaster and shook down the window blinds; I have
coughed a counter-tenor. I have coughed a rumbling bass, I have
coughed until my coughing blew the whiskers from my face. All the
dope you've brought me, mother, simply fails to hit the spot; I have
taken tons of tablets, demijohns of liquid rot; I have drunk the tea
you brewed me, worn a poultice on my throat, and the doctor has my
savings and the druggist has my goal. Let us change the treatment,
mother, give me goose or gander grease; rub it on my tortured larynx
and perhaps I'll die in peace.

NOT ONE GRAIN
OF QUININE IN
THIS COMPOUND

The most severe cold will be broken,
and all gripe misery ended after tak-
ing a dose of Pape's Cold Compound
every two hours until three consecu-
tive doses are taken.

You will distinctly feel all the dis-
agreeable symptoms leaving after the
very first dose.

The most miserable headache, dull-
ness, head and nose stuffed up, fever-
ishness, sneezing, running of the nose,
sore throat, mucous catarrhal dis-
charges, soreness, stiffness, rheuma-
tism pains and other distress van-
ishes.

Pape's Cold Compound is the result
of three years' research at a cost of
more than fifty thousand dollars, and
contains no quinine, which we have
conclusively demonstrated is not ef-
fective in the treatment of colds or
grippe.

Take this harmless Compound as
directed, with the knowledge that
there is no other medicine made any-
where else in the world, which will
cure your cold or end Gripe misery
as promptly and without any other
assistance or bad after-effects as a 25-
cent package of Pape's Cold Com-
pound, which any druggist in the
world can supply.

Mr. Phillips said that during the
past month he had sold a number of
properties varying in price from
\$2,500 to \$3,500, among them being the
following:

The handsome residence property of
Jesse McCray, on North Fourth street,
was sold to Mr. Milton Wilkin of
Mary Ann township, who has already
taken possession. Mr. Wilkin has
moved his family to Newark for the
purpose of educating his children.

One of the latest sales made was
that of the Thomas Africa property on
Granville street, to Attorney Rod-
erick Jones, who bought it with the
intention of making it a home for
him. This is a fine seven room frame
house with a lot 53 x 300 feet. The
consideration was \$3,500.

The double frame house on Gran-
ville street, belonging to John C. Cul-
linan, master mechanic of the Indiana
Central railroad, with headquarters in
Muncie, Ind., was sold to Mr. Jesse
McCray for \$3,800.

Mr. Spelling said that he had also
sold two houses on West Main street,
one for \$2,500 and the other for \$2,750,
and one house and five acres of land
in the Franklin addition to Francis F.
Fry for \$2,500.

Mr. Phillips is of the opinion that

SOCIETY

The Whatsoever Circle of the King's Daughters celebrated the twenty-fifth anniversary of its organization with a banquet Thursday evening at the home of Mrs. C. F. Legge in North Fourth street. The Newark Circle was organized under the leadership of Miss Shields the same year that the National Circle was, so it ranks among the pioneers in the great work. At eight o'clock a delicious dinner of three courses was served twenty-eight guests being seated at a beautifully decorated L shaped table. The white carnations at each place were Dr. Legge's contribution to the occasion. The last course of the banquet was followed by toasts. Miss Minnie Williams, the leader of the circle, presiding very gracefully as toastmistress. "Our Order" was responded to by Mrs. Eugene Ball. "The Whatsoever Circle and Our First Leader," Miss Alice Ashbrook. To the "Ideal King's Daughter," Miss Shields. "Our Absent Members," Miss Felix. "To The Two Charter Members," Miss Williams. Toasts to all present by Mrs. Eust. "To the President Leader" and "To the Hostess" were impromptu toasts. As organizer of the circle Miss Shields was presented with roses and Miss Felix and Miss Ashbrook, the two charter members were presented each with a bouquet of violets. The organization is one of the most important in the country and dispenses aid of all kind to all men. It is religious but non-sectarian and the work is really The King's work. In responding to the toast, "Our Absent Members," Miss Felix read a number of letters from absent members and national officers of the order.

The regular meeting of the Silent Circle of the King's Daughters was held at the home of Mrs. J. V. Hilliard on Tuesday evening at which time the election of officers for the ensuing year occurred.

The officers are as follows: Mrs. J. V. Hilliard, leader; Mrs. S. D. McClure, first vice leader; Mrs. Taylor, second vice leader; Miss Amy Ford, secretary; Mrs. D. Jones, treasurer.

Mr. and Mrs. Hoover of South Morris street, who are about to leave for their new home at Halloway, were surprised on Thursday evening by a number of their friends, all en mask.

A dainty luncheon was served and all departed wishing the family success in their new home, where Mr. Hoover has accepted a responsible position with the B. and O.

A delightful surprise was given on November 15 for Mr. and Mrs. Admiral Evans at their home on Union street by about thirty of their friends and neighbors. As Mr. and Mrs. Evans are leaving this city, Mr. Evans having been transferred by the C. U. Telephone company to chief inspector at Washington C. H., where they will make their future home. The evening was spent in music and recitations and a select reading, also the elephant contest, the first prize going to Mrs. Rothwell and second to Mr. Oakleaf.

At a late hour refreshments were served to the following guests: Mr. and Mrs. Redman, Mr. and Mrs. Elmer Croft, Mr. and Mrs. G. W. Clifton, Mr. and Mrs. Oakleaf, Mr. and Mrs. M. A. DeFrance, Mr. and Mrs. Aust Smith, Mr. and Mrs. Larkin, Mrs. Rothwell, Mrs. Lewis Croft, Mrs. Wilkins, Mrs. Mary Walters, the Misses Bessie Larkin, Lillian Lawrence, Jennie Croft, Elizabeth Croft, Estella Rothwell, Earnest Smith, Ruby Croft, Masters Paul Clifton, Walter DeFrance, William Rothwell, George Killebreath Evans.

Rev. and Mrs. J. R. Tibbles had as their guests Thursday at their home in Hebron: Mesdames A. S. Mitchell, D. B. Hunt, C. D. Paramore, J. C. Burgo, Harry Kirkpatrick, Frank Agnew.

The marriage of Miss Louise Vance of Utica and Mr. Ralph E. Wheeler of Springfield will be solemnized at the bride's home in Utica Saturday. The young people will reside in Springfield, where the groom is a government employee in the postoffice, having charge of the money order department.

The Cotillion club will dance at Assembly hall on Thursday evening, November 23. This is one of a series of dances being given by the club.

The Entre Nous club gave another of its delightful dances on Thursday evening at Assembly Hall. About fifty couples danced from eight to twelve. Delicious punch was served throughout the evening.

Mrs. Walter Coffman was hostess to the members of the Twice-Four Pedro club on Tuesday afternoon of this week at her home in Granville street. At the conclusion of the progressive game the souvenirs were awarded to Mrs. Walter Coffman and Mrs. David Williams. The next meeting will be

at the home of Mrs. Gerard Besancey in West Church street.

WISEMAN—WILLIARD.
At his home on North Fifth street on Wednesday, Rev. L. C. Sparks solemnized the marriage of Mr. Albert Wiseman and Miss Olive Lenora Willard, both residing in Franklin township, this county. Mrs. Hattie Newlan and her children witnessed the ceremony. The happy couple have many friends in their neighborhood who will be glad to extend best wishes.

HAAS—ALSPACH.
At 2:30 p. m. Thursday, Rev. Dr. Sparks officiated at the wedding of Mr. Henry Haas and Miss Jessie D. Alspach. The groom is a young farmer of sterling worth residing near Utica while his bride is the highly esteemed daughter of Mr. and Mrs. Edward Alspach, living near Chatham. A host of friends join in best wishes.

TAR AND FEATHER CASE BEING TRIED

Lincoln, Nov. 17.—Twelve men sat in the jury box today, all subject to challenge when today's session of the "Tar and Feather" case against the remaining five defendants accused of having brutally assaulted and mistreated Miss Mary Chamberlain, school teacher. When court opened all women and children were barred from the court room, owing to the character of the testimony to be given. The prosecution today declared that if a jury is secured today, Miss Chamberlain will take the witness stand to tell her story. According to Miss Chamberlain, three men did the tarring, one man held her prostrate while the other two smeared on the hot tar.

ANOTHER REVOLUTION.
Washington, Nov. 17.—Danger of another well organized and formidable revolution in Mexico, has caused the postponement of the recall of the American troops sent to the border country during the Madero revolt. Further trouble is expected in which the United States will preserve strict neutrality.

BEGIN IT TODAY

That good old saying, "A stitch in time saves nine," is proved over and over in our daily life.

For example, when you begin to feel out of sorts, don't want to eat, and don't seem as strong as usual, if you would begin right away to use Vinol, our delicious cod liver and iron preparation without oil, you could easily put yourself in good trim again with one bottle, or less. But when you wait and grow worse all the time, it is bound to take more.

We just got a letter from Mrs. Mary Glynn of Mt. Vernon, N. Y., who says: "When my health became run-down last March I took prompt action to improve it and was told that Vinol was the best thing to build me up. Using one bottle of Vinol has made me well and strong again."

Don't put it off another day. If you feel the need of more strength and better blood, or if one of your family is weak and sickly, Vinol will give renewed strength and energy. If it does not, we will give you back your money. F. D. Hall, druggist, Newark, O.

CURIOUS BITS OF HISTORY

PATRICK HENRY AND SLAVERY.

By A. W. MACY.

Patrick Henry, as every school boy knows, demanded liberty at the top of his voice, and his words still ring in our ears, though his tongue has been silent for a century. Yet Patrick Henry owned 20 slaves, and even at his death did not set them free, but willed them to his wife. It seems strange that so ardent an advocate of freedom for himself should deny it to others. This question of slavery bothered a good many of the revolutionary leaders. Many of them were slave holders, and while they believed in liberty, to have freed their slaves would have been to throw away a large part of their fortunes. Possibly some of our latter-day patriots would hesitate under similar circumstances. To his credit be it said that Patrick Henry appreciated his inconsistency. Writing of slavery he said: "I believe a time will come when an opportunity will be offered to abolish this lamentable evil. . . . I am drawn along by ye general inconvenience of living without them. I will not, I can not, justify it." In his will he directed that in case his wife married again she should have no more of his estate than she could get by law. She did marry again, without waiting very long; so perhaps he might as well have freed his slaves after all.

JUST TRY A TEN CENT BOX OF CASCARETS

Insures You For Months Against a Sick Headache, Biliousness, Constipation or a Bad Stomach.

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only a few cents. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.

TRIED TO TUNNEL OUT PENITENTIARY

Columbus, Nov. 17.—In an attempt to imitate the historic escape from the Ohio Penitentiary of General John H. Morgan, leader of the civil war Morgan raiders, Alfred Mercer, 25, serving a two-year sentence for cutting to wound, was discovered today tunneling a way out through the gray stone wall.

Dog's True Heaven.

Wonderfully trained sympathetic and smart dogs are the dearest companions of almost every German student who has the money to afford one or more. These can be seen in the university towns fantastically outfitted with the student corps color, in ribbons or wearing the tiny monkey student cap on doggie's head. Often are dogs sent on all sorts of chores, carrying a basket of eggs, bread or butter, a bottle of brandy, dressed chicken, etc. Outside of too many labor stunts—often grievous drudgery—Germany is the dog's true heaven.

Value of a True Friend.

A sure friend is best known in an adverse state. We know not whom to trust till after trial. There are some that will keep us company while it is clear and fair who will be gone when the clouds gather. That is the only friendship which is stronger than death, and those the friends whose fortune are embarked in the same bottom—who are resolved to sink or swim together.

Aye, Times Are Changed!

Guests were expected to drink too freely of liquors at castles in the Scotch highlands years ago, and a servant is said to have once exclaimed: "Ach, it's sair changed times at Castle Grant when gentlemen can gang to bed on their ain feet, whatever."

INSTANT RELIEF FOR SORE FEET

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well, No Matter What Ails Them.

Police men all over the world use TIZ. Police men stand on their feet all day and know what sore, tender, sweaty, swollen feet really mean. They use TIZ because TIZ cures their feet right up. It keeps feet in perfect condition. Read what this policeman has to say: "I was surprised and delighted with TIZ for tender feet. I hardly know how to thank you enough for it. It's superior to powders or plasters. I can keep my feet in perfect condition. Believe in my earnest gratitude for TIZ. I am a policeman and keep on my feet all day."—Emzy Harrell, Austin, Texas.

You never tried anything like TIZ before for your feet. It is different from anything ever before sold. TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is for sale at all druggists at 25c per box, or it will be sent you direct if you wish from Walter Lathrop & Co., Dodge Building, Chicago, Ill.

His Fortune
The Peddler Boy Went
About the Country

"TELL us a fairy story tonight, daddy," urged the children.

"All right, then; I'll have to think one up. I think I'll tell one about a boy peddler. He was a poor boy who had no parents, and long ago in the days when there were fairy folk he went about the country selling shoe laces and combs and ribbons and things of that sort. And always he was longing to see the fairy folk.

"Perhaps they'll make my fortune," he said.

"The peddler boy was a very kind boy. So when he came to where a tall beech tree grew along the road and sat down to eat his luncheon of bread and cheese he noticed at once a sad chirping, and, looking around, he spied a poor grasshopper perched on the trunk of the tree by a lone thorn.

"Poor thing," said the peddler boy, and he gently pulled the thorn out of its wings and placed the insect on the stalk of a tall plant that it might rest before flying away.

"How surprised he was to hear a tiny voice come from the throat of the little grasshopper. 'Mortal boy,' said the small voice, 'sleep tonight under the elder tree that grows by the bridge. You shall see the fairies, and your fortune will be made.'

"Then the peddler boy remembered that that was midsummer day. On midsummer night the fairies have their grand feast and then if ever can mortals see them.

"So after he had gone the rounds of the villagers and sold a few trifles he made his way to the stream. All night long he lay under the elder tree, and it was well after dawn when he awakened.

"A party of horsemen was crossing the bridge, and one pointed to the peddler boy, saying, 'See, sire; here is a lad who has slept under the elder tree.'

"Let us hear his story," said the king, for he rode at the head of this gayly dressed company.

"The little peddler boy stood up, not at all afraid of these grand gentlemen, so very much more splendid had been the company in which he had been all night, and he told the story of what he had seen under the elder tree that grew by the banks of the stream.

"It was a beautiful story and so beautifully told that the king exclaimed: 'Here we have no peddler boy, but a poet. Join us, my lad, and you shall be taught as poets are taught, and one day perhaps you may sing of us and our court as prettily as you have sung of fairies.'

"And so the poor peddler boy's fortune was made."

NO EXCUSE FOR BEING "RUN DOWN"
Tona Vita the Modern Tonic is for Sale By R. F. Collins Druggist.

There is no excuse for being all run down. If you feel tired most of the time with a poor appetite and bad digestion, you are debilitated and nature needs some assistance in throwing off this condition.

"Tona Vita" the modern tonic, is a sure means of overcoming this trouble. Many thousands of half sick, listless, nervous men and women, who lacked vitality and energy, have actually been made over by this splendid medicine.

"Tona Vita" was only recently introduced in this country, yet the sale of it is now tremendous and still growing. It is certain no medicine could be so successful unless it was accomplishing remarkable results.

"Tona Vita" is accomplishing remarkable results. It overcomes nervous debility in a few weeks time, and brings back the old energetic spirit that is lacking.

It brings restful sleep, good digestion, more vitality and drives away the listless, despondent feeling so quickly that will positively astonish you. Don't drag around half sick any longer.

There is an agent in every city, who will return the purchase price to you if the tonic fails to completely build you up.

Lee's Rhubarb Laxative is the assistant remedy to be used with Tona Vita in cases of chronic constipation. This medicine contains the splendid medicinal virtues of rhubarb, the finest of all natural laxatives. Harsh drugs strain the intestines while rhubarb, equally effective, has a tonic effect on the entire bowel tract. Lee's Rhubarb Laxative is an ideal family medicine and should be used in preference to any other laxative for children. The taste is very pleasant.

Tona Vita and Lee's Rhubarb Laxative are sold in Newark by R. F. Collins.

It was reported that he had suffered a stroke of paralysis Tuesday night, but this is denied. In a fall which occurred about three years ago Mr. Maynone sustained a broken leg. The injured member seemed to heal nicely but it has since given him considerable trouble. His present illness is attributed to the injury received at that time.

DIVORCE EVILS.
There is a social scourge more blighting and more destructive of family life than Mormonism. It is the fearfully increasing number of divorce mills throughout the United States. These mills, like the mills of the gods, are slowly but surely grinding to powder the domestic altars of the nation. I can conceive no scene more pathetic or one that appeals more touchingly to our sympathies than the contemplation of a child emerging into the years of discretion seeing her father and mother estranged from each other. Her little heart is yearning to love. She longs to embrace both parents, but she finds that she cannot give her affection to the one without exciting the resentment or displeasure of the other.—Cardinal Gibbons.

Interesting Race.
The Cholo Indians of Peru are a simple, docile people, although semi-savage in the remotest districts. They have the usual characteristics of mountaineers, poetical temperament, tinged with melancholy and tainted with superstition. They are extremely hardy and courageous. A Cholo will make long and fatiguing journeys, abstaining altogether from food for days at a time, sustained almost solely by the cocoa leaves, which are chewed in the same manner as the Kaffir of South Africa eat the kola nut under similar circumstances.

A Stilted Living.
Thousands of men in England earn their living during a considerable portion of the year by their ability to walk and work on tall stilts. Most of them are employed in the hop fields, where they have displaced the high stepladders formerly in use. During the pole striding season the stilt workers, 12 feet from the ground, perform the work with ease and without loss of time or motion. A trained stiltman will do the work of four men working with stepladders, it is said.

Clean pots and pans with GOLD DUST

Germes of decay accumulate on off-used pots and pans, and ordinary soap and water only cleans off the surface.

Gold Dust does the work—and does it right. It digs deep after germs, cleans like a new whistle and leaves your pots and pans as bright as the day they were new—and sanitarily safe.

Gold Dust does this work in just half the time required by soap or any other cleanser. Does it better, too.

Gold Dust cleans everything like magic.

Gold Dust is sold in 5c and 10c and large packages. The large package means greater economy.

"Let the GOLD DUST TWINS do your work."

Something New In Kitchen Ware

The "1892" Pure Spun Aluminum Ware is rapidly coming into use for cooking purposes. It is taking the place of agate and enamel ware because while its first cost is a trifle more than ordinary ware, it is really much cheaper in the long run, as it is guaranteed for twenty-five years and will last practically a life time.

The genuine "1892" Ware, made only from pure SPUN (not cast) Aluminum, will not crack, scale, peel, break, scorch or burn.

It looks like silver but weighs only about one-quarter as much, is easily cleaned and handled, and will not rust, corrode or tarnish. Absolutely pure, non-poisonous and wholesome; saves money, time and doctor's bills.

Be sure you get the original and genuine ware stamped with the Maltese Cross. At your dealers.

F. Mohlenpach, 30 S. Third.

AMUSEMENTS

What the Press Agent Says

"THE ROSARY."
Telling a story through which runs a virile religious sentiment that is heart-touching, and yet is not of the nature to bring offense, "The Rosary," the play of Edward D. Rose's, which proved such a big success last season, is repeating this year with added brilliancy. While the central figure is that of a Catholic priest, the character is so drawn that the question of sectarianism is not in any way involved. Rev. Brian Kelly is presented as a man of God, whose greatest thought is the good he can do for his fellowman of whatever creed or of no creed, and John Drury, who fills the character, seems to have caught the author's inspiration in his conception of the role as the audiences at the Auditorium will see when the production is presented Saturday, Nov. 18th, matinee and night. He plays a keen Irish sense of humor and good will as a foil to his priestly calling, and thus is able to solve the depths of a domestic tragedy.

MARY EMERSON AND COMPANY COMING.

Miss Emerson and her own company will be the offering by Manager England at the Auditorium all the coming week in a series of New York successes including Mildred Holland's brilliant romantic drama, "The Power Behind the Throne," Marie Dorso's greatest success, "The Morals of Marcus," Ethel Barrymore's delightful comedy, "Lady Frederick," and a number of her own successes written for Miss Emerson by Mr. Samuel Lewis, including "The Making of Madalena," "Will of the Wisp," "His Majesty and the Maid," and "The Streak of Yellow." His latest success which bids fair to far out-do any of his former delightful and interesting plays. The cast displays an unusually high mark of acting and is the best roster of players that will visit our city the coming season in stock, the staging of the productions are excellent and the settings of the sort which please the eye at the very rise of the curtain and immediately call for the audience's approval. The costumes are in keeping with the balance of the production and a fine series of standard successes will be the vogue for the entire week at the Auditorium. Monday "The Making of Madalena" as complete presentation in every detail will be the opening play. The usual matinees will be the rule for the week. Seat sale for the week is now open at the advance sale at the box office.

THE ORPHEUM.

The new bill which opened at the Arcade theatre yesterday was greeted by three crowded houses and every patron seemed more than pleased. The "Four Harmonious Girls" exceeded all advance notices. Their singing program includes a wide variety of popular selections with some clever dancing intermingled. The costuming of the act is very neat and attractive. There is an air of grace and refinement about the offering which appeals to all and with the very good judgment to sing popular selections the quartet of young ladies practically took their audiences "by storm." Chas. Leonard assisted by Miss Ethel Drake in mimicry and comedy also scored a big hit. The imitations of Mr. Leonard are wonderful and high class in every respect. The act is interspersed with good clean and wholesome comedy. Ethel Drake is a very charming young miss and made a favorable impression. The Bancrofts in "The Squire's Decision," gave a true lesson in New England life, which was very interesting as well as full of good clean wit and comedy. Both are very clever people and pleased immensely. Beemer and his juggling girl in a novelty entitled, "Fun in a Bowling Alley," have an act that is different from all the others and is one you'll be sure to like. They introduce an excellent line of juggling and a nice little bit of comedy. The Orpheumscope shows a very pretty story.

ON OFFICIAL BUSINESS.
William Sheppard of Black Hand, was a visitor in the city Thursday, having official business at the court house. Mr. Sheppard was re-elected constable at the late election by a handsome majority and will continue to look after law enforcement in Hanover township.

THE THIN AND WEAK.

Easy Way for Them to Get Strong and Fat.

To thin and weak W. A. Erman & Son have a word to say. Let them use Samose, the wonderful flesh-forming food, that is now so popular, and they will soon be plump and rosy.

Samose is not an ordinary medicine; it is a flesh-forming food that is adapted to the most delicate. Its tonic effect gives strength and health so that after its use for a short time, all the flesh and fat producing elements in the food will be easily assimilated and retained by the body.

The large sale Druggists W. A. Erman & Son have had on Samose since they first introduced it in Newark and the wonderful results following its use have made them such enthusiastic believers in its great merits that they give their personal guarantee to refund the money if Samose does not make thin people fat and restore strength and health.

When a gain in weight is noticed after Samose has been used for a week or ten days, and health has improved, and you notice yourself growing stronger, you certainly should feel more than satisfied with what you have received from the small cost of 50 cents.

DAVID BENNETT HAS RESIGNED AS ASST. Y SECRETARY

Mr. David Bennett, the efficient and popular assistant secretary of the Young Men's Christian Association, tendered his resignation on Wednesday to take effect in December. This information will be received with a great deal of regret by the countless number of friends both young and old, made during his stay in Newark.

Mr. Bennett came here from Philadelphia two years ago at which time he accepted the position of assistant secretary of the Y. M. C. A. This capacity he has filled most efficiently, doing very excellent and commendable work especially among the younger boys. In the Sunday afternoon meetings, where he assisted Dr. Bennett in carrying on the largest meetings of this kind ever held in the United States. He also had charge of the younger boys Bible class, where he weekly prepared a supper for those who came to hear a lesson taught in the way a boy can best understand it, by Prof. Cromer.

The average attendance of this class was tripled owing in part to the little treats prepared for the boys at his own expense. Mr. Bennett expects to leave the first of the year for his old home in Philadelphia, where he has received several offers of responsible positions.

A Narrow Escape From State Prison

By SAMUEL E. BRANT

Copyright by American Press Association, 1911.

I was cashier for Richard Steptoe & Co. I had the safe combination and was implicitly trusted by the head of the firm. The amount of cash in the safe varied. Sometimes there would not be \$10, sometimes there would be \$1,000, and occasionally when a large amount of currency would come in after banking hours it must be kept overnight there. At such times I was always troubled, for the safe was an old pattern and the lock out of date.

I always counted the cash in the safe, night and morning. One morning my cash did not correspond with what had been there the night before by \$20. I thought that I must have made a mistake in my count the night before, but on balancing my cash I could detect no error. Fearing that something was wrong with me, I said nothing about the missing money, but, being sure that my cash balance was right, made up the deficiency from my own pocket.

Within a week I missed another amount from the safe. This time it was \$15, a smaller sum than before, but the amount in the safe was much smaller than before. It now became evident that some one not an outsider had the lock combination and was helping himself whenever in need of ready cash. I feared it might be one of the clerks who was tempted. I shrank from being the means of sending any one, especially one I knew well, to prison, so I went to Mr. Steptoe and told him that I thought we should have a new safe or at least a new lock. The matter was compromised by a safe and lock workman changing the combination.

What was my astonishment ten days later to miss another \$10. I had been given the combination by the man who had changed it. He had not even spoken it. I had handed him a slip of paper on which he had written it and handed it back to me. There was something uncanny about these disappearances. I am no more superstitious than other fairly educated people, but I couldn't momentarily resist the feeling that a ghost was helping himself to the cash.

Still, I didn't report the matter. I had a dread that I should get some of my fellow employees into trouble or that I should discover that something had gone wrong with myself. After thinking about the matter a good deal I found that I couldn't add a column of figures twice with the same result. I called on my doctor and told him that I suspected my mind was giving way. He recommended me to take a vacation. I didn't take his advice, not liking to leave the safe to any one else during my absence.

I thought of watching the safe nights, but I couldn't watch every night, and there was no knowing when a robbery would occur. Sometimes several weeks would elapse between them. But after I had made up a hundred dollars from my own pocket I began to think I had better take measures to stop the leak.

One day, when one of the clerks, George Simpson, came for his salary, I noticed while he was signing the receipt slip that the end of the forefinger of his right hand was covered with the finger end of a kid glove.

"Cut your finger?" I asked.

"No; burned it."

The next week when this young man, Simpson, came to draw his salary he still wore the covering on his finger. When I remarked upon it I detected a look of uneasiness cross his face. I didn't think much about it, however, but when another week had passed and I still noticed the kid covering I began to wonder about the finger.

"Not healed yet?" I asked.

"No; I guess my blood must be in a bad state."

"Let me see it."

He took off the covering. The tip of his finger looked as if the skin had been taken off and had not grown again. I made no remark, but took the receipt he had signed and filed it.

At a time when no money had been missed for a space of twelve days I made up my mind to watch the safe nights. I couldn't remain awake every night in succession, so I took a book-keeper, Travers, into the secret, and we started in to watch alternately. I took first watch, Travers second. On the fourth night, it being my turn, about 11 o'clock I heard a key put in the lock of the office door. Some one came in stealthily, and I could hear the tread toward the safe. Pretty soon I heard a faint sound like a tumbler falling in a lock. I waited awhile and heard another, then another, until I had heard four. My position was behind a desk over which was an electric light. Hearing the safe door swing open, I switched on the light. There was a man reaching into the safe. He turned pale as a sheet and faced me. I went to him. He was Simpson.

"I wasn't taking anything out. I was putting it back," he gasped, holding out his hand with some bills in it.

"Simpson," I said, "you're a fool."

"I know it."

"I have known of this for a long time. Tell me how you did it."

"I pared the skin of my forefinger down to the quick, making it so sensitive that I can feel the tumblers fall. I breathed a sigh of relief. He was returning all he had taken. I did not report the matter, and he has never again taken such a risk at money borrowing. He had a narrow escape from a wrecked life.

TO CELEBRATE FOUNDERS' DAY AT GRANVILLE

Hon. E. O. Randall Will Deliver Address—Many College Fraternities at Old Denison.

Granville, Nov. 17.—Some years ago the custom was inaugurated in Granville by the Granville Historical Society of celebrating in an appropriate manner each year the founding of Granville by the memorable band of New Englanders who took up their abodes here one hundred and six years ago this week. This year the "Founders Day" celebration will take the form of an address by the Hon. E. O. Randall of Columbus, a witty, entertaining, and also scholarly speaker, with whom many Granville people have the pleasure of personal acquaintance, and whose deep interest in Granville is well known. Mr. Randall's address will be delivered in the Baptist church on Sunday evening the 19th, at 7 o'clock. The various churches have co-operated with the Historical Society to make the occasion a success by suspending their regular services for the evening.

One of the features of college life is that of the fraternity, and this is nowhere more evident than in Granville, where Denison students have quite a number of fraternities among them being those of Phi Gamma Delta, Beta Theta Pi, Sigma Chi, and several others. The chapter house has come to be for graduates, as well as for students, one of the dearest of college memories, and the undergraduate members constitute themselves a voluntary committee to keep those memories alive. The Columbus Dispatch, in a recent article on this subject says, "If an actively interested alumnus body is a boon to a college, it can readily be seen what these fraternities are doing for the college itself. Their correspondence and publications are constantly going out to alumni and even to ex-students who did not graduate, and in their conventions, the college gets an advertising free of charge, which the institution could not get for itself without much expense."

Subscriptions are now being solicited to meet the expenses of the coming Christmas Festival, as the regular sale of tickets cannot be expected to do this.

Mr. and Mrs. M. D. Vernon of near Mt. Gilead, O., who have been visiting at the home of Mr. and Mrs. D. G. Williams near here for the past week, returned home Friday.

The announcement of the engagement of Miss Olive Marie, daughter of Mr. and Mrs. W. A. Rusler, to Mr. Fred G. Smith of Cleveland, has been made. The wedding will take place in January.

James Ehrenfeld of Embleton, Pa., was in this vicinity this week looking over the gas field.

Mr. and Mrs. F. B. Marley of Cleveland, O., who have been visiting relatives and friends in Newark and vicinity for some days, returned home Friday.

Harry Avery and family have moved here from Willink, N. Y., and are now living in Mr. Charles Avery's house, in the Shepardson Court addition.

There are a number of sidewalks in the most frequented streets of the village which have small and hardy

perceptible obstructions protruding sufficiently to cause a stumble and fall. The property owners could make walking pleasant if some of these obstructions were removed.

The Columbus Gas and Fuel company recently drilled in three wells in Eden township which have a total production of seven millions. This company will have another well coming in on the Wilson farm in the same field this week.

The many friends in Granville and throughout Licking county will be glad to learn that ex-County Treasurer George Miller, who sustained a slight stroke of paralysis at his home on London street, Sunday night, is now slowly improving. Mr. Miller sustained a slight stroke of paralysis about five years ago, which affected one of his sides. This time it affected the other side.

IMPROVEMENT OF COURT HOUSE PARK

Several months ago the Board of Trade announced that an effort would be made to improve the appearance of the Court House park—Newark's front yard—and with that end in view passed a subscription paper about town. New walks, preservation of the trees, planting of shrubs, installation of sanitary "bubblers" fountains, better lighting—these were the things aimed at. The fund has to date proved insufficient to complete the work but a splendid start has been made. Nearly 600 electric lights have been placed on the Court House dome and two of the eight bubble fountains have been installed.

Members of the city council express a willingness to appropriate \$300 to preserve the trees and the county commissioners look with favor upon a plan to improve the lighting at the entrance to the Court House. It is hoped that sufficient funds will be secured to permit the work of improving the walks to be done in the spring.

As chairman of the Board of Trade Committee having this work in hand, Mr. George B. Sprague has given very effective and efficient service. The Court House lights will be turned on Saturday evening and every evening they will burn from dusk until midnight.

GRAY HAIR MAKES YOU LOOK OLD

Gray hair is a mark of age and nothing that can be said as to its beauty will affect the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy Jarkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients which makes a delightful dressing for the hair, and which not only removes every trace of dandruff, but promotes the growth of the hair. It also stops the hair from falling out and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented. Don't neglect your hair and don't resort to old-time hair dyes. Get a bottle of Wyeth's Sage and Sulphur from your druggist today, and notice the difference in your hair after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

QUIT CALOMEL!

THOUSANDS ARE TURNING FROM THIS DANGEROUS DRUG.

A Safe Vegetable Substitute Is Olive Tablets for the Liver.

Dr. F. M. Edwards, a prominent physician of Portsmouth, Ohio, has discovered a new laxative and liver toner in a combination of vegetable materials, mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel, except that there are none of the bad after effects of calomel.

Dr. Edwards has long been a foe of calomel, though he recognized its value along with its dangers.

His distrust of the uncertain drug eventually started him years ago towards experiments with the view of discovering a substitute, and he is today in possession of a long sought-for combination, which is in the shape of a little sugar-coated, olive oil colored tablet. The results of fifteen years' experience and practice are embodied in these marvelous little tablets.

They are called Dr. Edwards' Olive Tablets, and their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as to thousands of others who have suffered and were afraid of calomel.

They are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities.

"Every little Olive Tablet has a movement all its own."

All druggists sell them in neat, vest-pocket sizes at 10c and 25c.

The Olive Tablet Co., of Portsmouth, Ohio, or Columbus, Ohio, Dr. F. M. Edwards, President.

WHERE WERE THE PEOPLE?

For a matter of four years, during a period including the seasons from 1907 to 1909, I was identified with the auditorium theatre in a managerial capacity, and during that period it was an almost daily occurrence for some one to ask why the better musical personages were not "noticed" in our theatre. During my incumbency, I played a number of high class musical events with invariable loss, those important ones generally absent with the later excuse that "they did not know it was coming" or "did not know it was of so high a class."

But it remained for the present management to be handed the greatest lemon (to use the vernacular of the streets) of us all.

Last evening we had in our midst one Pablo Arriola, a Spanish musical prodigy of world renown; not a child in the nature of doing childish tricks with a great instrument, such as imitating the tinkling of the mandolin or the twang of the harp and guitar as heard so frequently on our cheaper vaudeville stages, but a real musician, with the skill and technique of the most experienced performer, and above all, with the musical soul of an old master. This fourteen year old prodigy who has played in all of the principal cities of the world, and before a host of celebrities was greeted in Newark last night by scarcely one hundred of its 20,000 population. And one family contributed ten attending members to that number, and that family has no music teacher in it, I am told, nor are they subscribers to the Blade or any other of the similar musical magazines that have landed this young man in an so enthusiastically. But the family knew that in our neighborhood, city of Columbus, young Arriola had crowded the im-

mense Auditorium with his admirers, and taking this event alone as a criterion of the merit of the performance, attended, one might say, en masse. Would that Newark had more such intelligent families.

I write this article, not in criticism of those who do not care for the higher classes of music, and certainly there are many such, but in criticism of those who pretend to the better things, who study music in their clubs, who study the character and achievements of the old composers and then proclaim with great gusto that "Newark never gets the good things." Could not these clubs be a little more modern and combine with their studies the study of what today are the "good things?" Those 200 local subscribers to the Blade and other musical journals should not confine themselves alone to playing over the easier musical numbers contained therein and consider they

have obtained their money's worth at that.

Above all things, let them remember when they hear in ten years hence that Arriola is the greatest pianist extant, that he once even condescended to play in Newark.

GRAEF'S CASE EXCITES SYMPATHY OF OFFICIALS.

(Ohio State Journal)
"And to think, after all the rest of my troubles, that I am to end here," said Frank Graef yesterday from Newark to begin a sentence of 15 months for manslaughter. He is another of the men convicted for the lynching.

While he was out on bond, soon after his arrest, a leg was amputated owing to tuberculosis of the tissues, which had incapacitated him for a number of years, during most of

which time he was in a sanatorium. His condition excited the sympathy of the officials in the penitentiary.

A Remedy No Family Should Do Without

No matter how healthy a human being may be, it is safe to say that some obstruction of the bowels, in other words, constipation, is always kept going. The bloating, the dull feeling, the start after the evening meal, if a laxative is not taken that night it is certain that sleep will not be sound, and you will awaken unrefreshed. Hence, it is important for you and for all the members of your family that a good, reliable laxative be always kept in the house for just such emergency. It is sure to be needed, and when needed you want it at hand. No family that is careful of its health can do without such a remedy. But the question of which "remedy" to have on hand is also of vast importance. The laxative most highly recommended by the majority of intelligent Americans as being best for babies and grownups is Dr. Caldwell's Syrup Pepsin.

It is a liquid laxative-*tonic*, mild, and never gripes, is effective on robust people and can be given with safety to an infant. Children like it because of these gentle qualities and because it is pleasant to the taste. It is the best all-around remedy you can have in the house for any disorder of the stomach, liver and bowels, and many people like Mr. Thos. C. Avery, 412 S. Grove St., Bowling Green, Ohio, and Lafayette Decker, 605 G. St., Findlay, Ohio, say they would as soon be without the necessities as without Dr. Caldwell's Syrup Pepsin. Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

B. & O. CLAIMS VALUABLE LAND IN CLEVELAND

Columbus, O. Nov. 17.—Oral arguments were heard in the supreme court today in the case between the state and the Cleveland Terminal company and the B. & O. railroad to decide the ownership of a strip of land in the heart of Cleveland worth \$5,000,000. The lower court held that the property, although owned by roads as a right of way, belonged to the city. If the supreme court upholds the decision the roads will either have to lease the land or abandon it.

COSHOCOTON YOUTH IS CHARGED WITH A SERIOUS CRIME

Coshocoton, O., Nov. 17.—As a result of a serious charge preferred by Mrs. Thomas A. Crozier of Dresden, mother of Fannie Crozier, aged 18 years, James Angelone, aged 17, son of Pete Angelone, prominent wholesale fruit merchant of this city was arrested yesterday and taken to Dresden by Marshal Frank Comer. The young man was arraigned before the Dresden mayor, pleaded not guilty and his bond was fixed at \$100. He gave bond and was released. Angelone lived in Dresden last summer for several months. He was arrested several times for bootlegging it is said.

An incidental advantage claimed for the new Sover System of Cooking in Paper Bags is that it saves time and anxiety—the housewife doesn't have to keep looking at the food from time to time as it is cooking to see if everything is all right, but, instead she puts the food in the oven, shuts the door and leaves it there until it is time to remove it, and there are definite rules for the length of time each kind of dish should remain in the oven.

WILL NOT LOWER PLAYERS' SALARIES

San Antonio, Nov. 17.—How to reduce what major league owners consider the high cost of baseball continued today as the most important matter before the organized baseball leagues in conference here. Second in interest is the reported attempt of the major league owners to purchase outright southern clubs to be used as a farm for the larger teams.

That any drastic action toward the lowering of the salaries of players would result in baseball outlawing is admitted by all owners here. So it is not a change in action will be taken in this direction.

Harry Wolcott will marry a New York woman in the next few days, according to reports here.

Avoid Instilling Fear
Fear is the guardian instinct of life. On the other hand animals that are too wild, so that even the familiar becomes too suspicious, can not get their food and cannot leave a progeny, they become eliminated by the process of natural selection. There is a certain amount of trust that nature demands even of its most defenseless and timid children.
